

American Teeswater Sheep Association

ATSA Form for Approval of Imported Semen

Before any Teeswater semen is eligible for recognition for use in the ATSA, this form must be submitted and approved along with the required documentation (see below).

Ram's Name: _____ Tag #: _____

ATSA # _____

Owner of ram at time of collection: _____

We are encouraging the submission of DNA testing to go on file with the ATSA for future reference. This may become a requirement in the future.

I certify that all information provided is herein is accurate, timely and correct. If approved, I give permission to the ATSA to use the pics/videos used in this application for promotional purposes.

Importers Signature: _____

Date: _____

The collected UK Registered Teeswater Ram must be white and provide the following:

- UK Registration number and copy of UK Pedigree
- Copy of import permit from USDA
- A representational picture of the ram

Submissions will be reviewed by the board and once approved the donor sires will be given an ATSA number and be entered into the ATSA registry. Please note that DNA testing may be required in the future. Also please note that some labs may prefer purple top blood tubes to semen, blood cards or follicle samples and that future testing might not be available for frozen semen.

Please contact info@americanteeswatersheep.com or atsa@glmregistry.com with any questions, we are happy to help!
